

PRIORITY COMMUNICATION SYSTEMS LTD.

**Buffalo Grace Manor,  
Lethbridge, AB**

**Covenant  
Care**

## This Month's Feature Project

Buffalo Grace Manor is a 102-bed state-of-the-art supportive living centre designed with the thought of maintaining their residents' independence, health and well-being. They included many **PCS** technologies in this brand-new community that are integrated to work seamlessly together.

**Polys DCC Wireless Emergency Call System:** A smart, efficient nurse call system can make staff more productive, while raising the quality of patient care.

**Mitel Phone System:** Unique digital wireless phones that deliver over-the-air synchronization, enhanced signal strength, advanced security protocols, super audio quality, and more.

**MIWA Door Entry:** This door entry system has been designed to make it easy for your staff and residents to use, yet still have the security features needed.

**Panasonic CCTV:** Panasonic IP cameras, or network cameras, are the best surveillance cameras on the market today.

**Axiom Door Access:** Axiom combines Access Control and Alarm Monitoring with Video, Building, and Visitor management, into an elegant and versatile security management solution.

**Fanvil Intercom:** This wall mount intercom provides a direct link to the buildings phone system for easy communication with visitors.

**Obie for Seniors:** Obie is an interactive gaming console that projects games onto any surface, encouraging active play through touching, moving, and hand-eye coordination skills.
